**Curious what I've built?**

Experience, Impact, Projects, Skills, and more.

**Visit My Portfolio →**

## ABOUT ME

**Electrical & Electronics Engineering B.Sc. graduate (GPA 96, Dean's List)** from HIT, specializing in Electro-Optics and Microelectronics. Strong academic background combined with hands-on laboratory and research experience. Motivated to apply academic knowledge in a practical environment, contribute to innovative projects, and grow professionally in the industry.

## EDUCATION

**Holon Institute of Technology (HIT) -** B.Sc. Electrical & Electronics Engineering. — Oct 2022 – 2026

GPA: 96 | Included in Dean's List.

- Specialization: **Electro-Optics & Microelectronics**
- Relevant coursework: Semiconductor Devices (**100**), Microelectronics Technologies (**99**), Digital Signal Processing, Control Systems (**98**), Electromagnetic Fields (**94**), Linear Circuits, Communication Systems, Microcontrollers Lab.

**Ein-Kerem High School –** High School Diploma, with honors. — 2015 – 2018

GPA: 103

Extended studies: Math, English, Physics, Biology, and Agriculture.

## EXPERIENCE

**Research Assistant** – Electro-Optics Laboratory, HIT — 2024 – 2026

- Designed and implemented optical setups integrating electronics and photonics.
- Conducted experiments with **lasers, sensors**, and **signal acquisition** systems.
- Processed and analyzed experimental data using **MATLAB** and **Python**.

## PROJECTS & LABS

- **Microcontrollers Lab:** Designed embedded systems (C programming, hardware testing).
- **Semiconductors Lab:** Characterized diodes and transistors, extracted IV curves.
- **Capstone Project:** Engineering final project in collaboration with Animal Health Technology Labs.

## TECHNICAL SKILLS

**Programming & Tools:** Python, C, MATLAB, LTspice, Oscilloscope, Signal Generators, LabVIEW.

**Engineering Knowledge:** Circuits, Semiconductors, Signal Processing, Control, Communication Systems, Microelectronics, Electro-Optics.

**Soft Skills:** Problem-Solving, Teamwork, Self-Learning, Responsibility, Initiative.

## ARMY SERVICE

**Israeli Air Force – Patriot Unit** — 2019– 2021

Classified Communication Systems Operator – responsible for secure real-time systems.
Awarded Excellent Soldier Certificate.

## VOLUNTEERING

- **"Babushka" Initiative with Elbit & "Shavot" NGO (2025–2026):** Participation in an educational technological empowerment project for girls from minority communities.
- **Perach Mentorship Program (2025–2026):** Mentoring and academic support for youth in underserved communities.
- **I-School Program (2024-2025):** Mentoring and tutoring elementary school students in a socio-economic peripheral community.
- **National Agricultural Harvest Scholarship (2024):** Team Leader.
- **Holon Elderly Club (2023):** Assistance and companionship for the elderly.
